Sample circular room

Room summary

Project

Company	Example Medical
Company contact	projects@example.test
Client	Sample Client
Client contact	client@example.test
Project reference	DEMO-01
Prepared by	Sample Designer
Revision	R2
Status	In review
Room purpose	Patient room — sample layout
Site / department	Example site / ward

Room

Shape and size	circle · Diameter 5.20 m · Height 2.60 m
Floor area / perimeter	21.10 m^2 · 16.31 m
Finishes	Carpet 011 · Walls #f2f2f3 · Ceiling #f2f2f3
Baseboard	Flat · paint · #f2f2f3
Furniture	1 in room · 0 not placed
Apertures	1 door · 0 windows · 1 opening

Furniture list

Model / category	Qty	Real-life W × D × H (m)	Size source	Placement
C8c Hospital Bed	1	995.00 × 2180.00 × 850.00	Real-life dimensions	In room

Real-life sizes use entered product metadata; catalogue sizes are used for built-in furniture. Where no real-life size was supplied, the model geometry is shown. Not placed items are excluded from the room views.

Client requirements and notes

Demonstration project. Review furniture placement and access before implementation.

Doors, windows and openings

Type	Width × height	Above floor	Location / centre
Opening 1	1.20 × 1.20 m	0.75 m	Circular segment 1 0.25 m from segment start
Door 1	0.90 × 2.08 m	0.00 m	Circular segment 9 0.25 m from segment start

Opening centres are measured along the perimeter/segment direction. The matching hidden-boundary schedule below gives positions from each highlighted run's start.

Hidden wall measurements

Boundary	Length / span (m)	Height (m)	Gross / net area (m^2)	Apertures
Front-1 Curved boundary	6.12 / 4.80	2.60	15.90 / 14.46	1
Right-1 Curved boundary	6.12 / 4.80	2.60	15.90 / 14.03	1
Back-1 Curved boundary	6.12 / 4.80	2.60	15.90 / 15.90	0
Left-1 Curved boundary	6.12 / 4.80	2.60	15.90 / 15.90	0

Length follows the represented boundary geometry; span is its horizontal projection in that view. Gross area is length × height. Net area deducts the union of clipped apertures, without double-counting overlaps.

Openings on hidden boundaries

Boundary	Aperture	Start–end along run	Bottom–top above floor
Front-1	Opening 1	2.71–3.91 m	0.75–1.95 m
Right-1	Door 1	2.86–3.76 m	0.00–2.08 m

Plan keys highlight only the hidden sections used for each view. Run positions begin at the dot shown on the key and follow its arrow. An aperture crossing a cutaway boundary is listed only for its covered portion.

Clearance recommendations

No clearance warnings from the current planner rules.

These recommendations use the model geometry and existing use-space settings. They do not assess regulatory compliance. Real-life/model size differences can affect the result.

3D handoff reference

All dimensions and positions are in metres. Origin: bounding box front-left corner, corresponding to Domus X 0.00, Z 0.00. X points right, Z points back and Y points upward. Furniture sits at floor level (Y = 0). Rotation is around Y in degrees from the source model orientation.

Model geometry and references

Model	Catalogue ID	Measured W × D × H (m)
C8c	model-7f052e07-718c-44f9-baaf-0e06af3439a4	1.12 × 2.48 × 0.84

Furniture placement

Instance / model	X / Z (m)	Y (m)	Y rotation
F1 · C8c	2.60 / 2.60	0.00	0.0°
